

Outcomes Management at the Bedside: It Takes More than Caring to Be a Good Nurse

You became an RN, RN Manager, Educator or LPN because you wanted to make a difference. How do you know you really are?

Learn how outcomes management measures the effectiveness of the care you give, and helps you continuously improve patient care.

ATTEND THIS FREE SEMINAR!

Approved for CEUs

Thursday, August 12 • 8-10 a.m.
The Pavilion at John Knox Village
420 NW Murray Rd., Lee's Summit, MO
Continental breakfast included.

- **Document. Document. Document.** It's tedious and time-consuming. What's it all really for? Data shows cause and effect. And your nursing judgment is a critical part of being able to track significant changes in your patients' health and the care given that created that change.
- **Jan Englert, RN**, a senior Malcolm Baldrige National Quality Award Examiner, brings practical tools, humor and her organization's insight to understanding how to connect your desire to provide care to the world of measurement.

Join us and learn to:

Identify the nurse/clinician role in publicly reported metrics * Discuss patient outcomes, data analysis and how methodologies are driven by documentation * Compare nurse curriculum to RN job satisfaction * Recognize Baldrige strategy in performance improvement from the bedside clinician's perspective * Discover value-based purchasing in anticipation of health care reform.

Reserve your spot by calling (816) 347-2127
or register online (starting August 1) and find
driving directions at www.jkv.org/careers

*Co-Sponsored by the Iowa Nurses' Foundation, Nursing Continuing Education Provider #25.
